**Subject:** Microsoft case

To whom it may concern--

I am a Minnesota citizen who uses both the Macintosh operating system and Microsoft Windows on my computers. I make my living using both platforms. However, I am disappointed with the federal government's proposal to settle in the Microsoft anti-trust case.

I believe that Microsoft are indeed acting against public interest in the way they seek to propagate what some might describe as an operating system monopoly.

I urge you to pursue more stringent prosecution in the interest of penalties against Microsoft that more accurately reflect their crimes, real and attempted.

Thank you for your time and consideration.  
I know you will follow the letter of the law and in the end, do the right thing.

Sincerely,  
Brian Tester
